FIRE UPON LOST BATTALION.

New York, May 6.—French artillery raked the position held by Colonel Whittlesey and his "lost battalion" in the Argonne Forest, despite the protests of Major General Alexander commander of the Seventy-seventh division, according to a disclosure made by General Alexander. All hope that Colonel Whittlesey could hold out against the terrible odds had been abandoned by the French, the general declared.

"This command was neither "lost" nor rescued," said General Alexander. "It suffered heavy losses. It was subjected to fire from both enemy and supposedly friendly artillery, the French, in spite of my determined protest, placed artillery fire on this ravine the morning of October 7, being quite convinced that the command must have surrendered. It may be noted that a demand for surrender, made the morning of the seventh when the command was under its most disadvantageous circumstances, was repelled with scorn (the speaker referred to the famous "Go to hell" reply) the command feeling perfectly competent to look-out for itself even then."

WANT NAMES THOSE REFUSING

Central Victory Loan Committee Has Requested Names and Reason

DATA BEING COMPILED

L. F. Rowe Will Address Victory Rally in Front of Young People's Building at 8 p. m., Tomorrow.

The Central Victory Liberty Loan Committe has requested the names of all persons who have refused to purchase Victory Bonds and also the reason for their refusal to do so. This information is now being compiled by the local Victory Loan Committee.

The local Victory Loan Committee requests all subscribers for Victory Bonds to call at the banks at once and make their first payment, as the subscription is not complete until this is attended to.

All persons who have not yet purchased Victory Bonds and especially those who have refused are requested to do so at once as the committee hopes that the list of names of those who have refused to purchase bonds will be comparatively small.

There is really no good reason why anyone should fail to purchase these bonds. There is no better investment in the bond market to be found today in the United States. These bonds pay four and three quarters per cent.

The local committee again appeals to the citizens of Alexandria to come forward and purchase the bonds to their means, as Alexandria has only attained one-half of her quota and the committee wants to make a showing fit for Alexandria by going over the top as she has done in all previous drives.

According to reports there are many persons in Alexandria who have only purchased bonds in small denominations who could have purchased ten times the amount and the committee hopes that all such persons will come forward before the close of the week and lend their support to the Victory cause. Surely there is nothing more commendable. Let every citizen pull together on this loan, and when the books are closed Saturday night and the figures compiled Alexandria will not be classed among the laggards.

Rally Tomorrow Night

Under the auspices of the local Victory Loan Committee a rally in the interest of the loan will be held at 8 o'clock tomorrow night in front of the Young Peoples' Building. An address will be delivered by L. F. Rowe, acting secretary of the Treasury.

The occasion will be enlivened by music which will be furnished by the 23rd Infantry Band of fifty pieces.

Mr. Rowe is regarded as an able speaker and the local committee is to be congratulated on having secured his services. Everybody in the city is invited to attend this rally.

FEAR MOBS WILL LYNCH SUSPECTS

Several truck loads of citizens left here shortly after midnight for Greensburg, declaring that they were going to take the prisoners away from the police and "lynch them."

Chief of Police Stahl said that the party drove into Greensburg, but made no attempt to enter the, barracks where the prisoners were confined.

LEAGUE STIRS CAPITAL

Word That First Session Will be Held in Washington Causes Unusual Interest

Washington, May 6.—Word that the first meeting of the league of nations will be held in Washington, if the league is ratified by the United States Senate—caused unusual interest here.

It the conclave gathers at the White House the scene of the epochal meeting will be the famous "east" or "gold" room of the mansion, wherein many events of historic moment have taken place. This is the only chamber in the White House sufficiently large to accommodate the delegates and their secretaries.

Owing to the fact that South American republics are numbered among the original league members and in view of the fact that the league resembles on a larger scale the present Pan-American Union, an effort has been started to make the scene of the deliberations, after the opening session; in the magnificent Pan-American Building here.

According to offiials, President Wilson being authorized to call the league in its first session, will preside at the meetings.

Society is buzzing in all quarters believing the event will mark the opening of a record social season in Washington, beginning in October, when the first conference is due to be called. It is pointed out that in connection with the event there would naturally be a diplomatic dinner given in the great state dining room of the White House and presided over by the President and Mrs. Wilson.

There also would be a reception at which members of Congress and their wives would be present, in addition to the elite of the capital.

NEARLY KILL A MAN

Desperate Assault Made on Owner of Machine by Lads of 17 and 21 Years of Age.

Sunbury, Pa., May 6.—With a key they fashioned out of a small piece of iron smuggled into their cell, Charles Herrold, 17 years old, of Milton, and John Kulp, 21 years old, of Shamokin, accused of burglary, escaped from Northampton county jail Sunday night by picking the corridor locks.

Early yesterday morning, W. T. Custer, a wealthy Milton resident heard a noise at his garage, and clad only in pajamas and in his bare feet went to the back porch, and was amazed to see his car lighted, with the engine running, outside of the building. He leaped to the running board and struggled with the man at the wheel. The companion of the man at the wheel attacked Custer, and the the two beat him into insensibility. In the struggle, the car was crushed half way through a fence and the men escaped, letting the automobile stand.

State police went to Herorld's home and found that he had been there a few hours before, leaving at a half hour before the time the murderous assault took place. From descriptions Mr. Custer identified the jail breakers as the two men who tried to steal his car and kill him.

The young men were being held in connection with the robbery of three business places in Milton, which State police say they admitted. As prisoners. Herrold and Kulp were docile, it is said. They were allowed the freedom of the corridor and had but one door to get through to reach the outside door of the jail which was not locked.

"There must be some one willing to marry me," said Joseph who sent the best man and several other friends out to look for another bride.

Miss Teressa Chasa, blushing and smiling soon made her appearance. The ceremony went on, with Rev. Dr. Fobluvich, pastor of the Steelton Orthdox Servian Church, officiating.

FUN TO WRECK TRAIN

Lads of 13 and 15 Years Respectively Tell Remarkable Story to United States Marshal

Pittsburgh, Pa. May 6.—Declaring that their love for excitement prompted them to place a tie on the tracks of the Pittsburgh and West Virginia Railroad, at Avella, Washington county, last October, causing the wrecking of a fast passenger train and placing in jeopardy the lives of more than 200 passengers, John Bonevitch, 15 years old, and George Dickanovitch, 13 living near Avella, unfolded an unusual story yesterday in the office of United States Marshal Short, following their arrest.

According to their story, the boys sought adventure, excitement and "just a little fun," and on the afternoon of October 1 they carefully planned the wrecking of the train, going to the tracks of the railroad, where they placed a heavy tie across the rails. Hurrying to a secluded spot near the tipple of a coal mine, they picked out a vantage point, they said, and awaited the arrival of the flyer.

"There was a crack and a lot of dust, and then, gee whiz! we got scared and ran home," said George, the younger of the youthful alleged train wreckers.

The boys are being held to await action of th eFederal Grand Jury.

MUST PAY COST OF PEACE

Alexandria, so far, has subscribed about one-half of her allotment of the Victory Loan. We had hoped to go over the top, and this may yet be accomplished.

The Victory Bonds have been virtually placed within the means of the great bulk of the people. A man or woman with a small capital and limited income can have a part in this patriotic movement with but little, if any, inconvenience. Fifty-dollar bonds can be secured by paying five dollars a month. Hence there is no excuse, as but few can sincerely plead that they cannot meet such an obligation.

In the good old days of the Israelitish theocracy all were given an opportunity to enter into the public recognition of the Creator. The rich could offer bullocks, but the poor could bring two turtle doves or young pigeons, or a handful of flour.

Victory Bonds are within the reach of all if they desire to avail themselves of the opportunity of securing the same.

While Alexandrians have not been as quick to buy Victory Bonds as they were to secure Liberty Bonds while the war was in progress, ours is not the only city where apathy is in evidence. Let us shake ourselves and rally to the support of our government who needs aid in finishing the great struggle for Liberty.

The Baltimore Sun says that never before has the situation been so serious as to warrant the issuance of such an appeal as that just put forth by Secretary Glass. This statement is not to be credited only to a natural desire to help the campaign along as much as possible, but also to the fact that there is real uneasiness in Washington concerning the progress of the Loan. With two-thirds of the campaign gone and only one-third of the quota reported, this uneasiness is justifiable.

It is not to our national credit that such a state of affairs exists. We have one week in which to remedy it by coming forth with $3,000,000,000.

It sounds impossible, but we won the war by doing the impossible. "Is American money less willing than American manhood?" asks Secretary Glass in summing up the situation.

It would have been bad enough had we honestly failed to gain a victory, but what shall be said of us if we refuse to pay the price for having gained it?

Finish the job!

SWAT THE FLY

The summer weather of Sunday and yesterday brought the house fly to the front. Many housekeepers placed their screen doors in position as well as screens used in windows, but equally as many more were not prepared for the invasion, and these pests were greatly in evidence.

Several years ago the health authorities of Alexandria awarded prizes to persons who killed the greatest number of flies. Cans were placed in the office of the Health Officer in the Ctiy Hall and thousands of these defunct insects were received and credited to those who performed the executions. The campaign lasted but one year, however, after which the fly made its entrance and exit as formerly.

The majority of housewives are not ready as yet to screen their homes, inasmuch as no one likes to do that until the curtains are all down and the housecleaning is finished.

Under no condition should a fly stay in a house unmolested. Swat him the minute you spy him, and, if he evades your murderous efforts, take five cents' worth of the oil of lavender, mix it with the same quantity of water, put in a common glass atomizer and spray the rooms where the flies are. This odor is very disagreeable to the flies but is not unpleasant to persons.

Geranium, mignonette, heliotrope and white clover also are offensive to flies, while they particularly dislike the fragrance of honeysuckle and hop blossoms. Keep these lovely fly preventives around your house while you can, and there will be no reason to bother killing them

According to a French scientist, flies have an intense hatred for the color blue and rooms so decorated will keep out these pests.

FIDDLE WHILE ROME BURNS

Some persons saw, or thought they saw, signs of a great religious awakening as a consequence of the war. They thought the depths of the soul of man had been sounded by the horrors and the agonies of the years of unparalleled tragedy.

The only reflection of such a feeling in evidence today is voiced in certain poems. Instead of a true spirit of thanksgiving there is a riot of waste, careless living, extravagance and hectic frivoling.

Germany, on the brink of an abyss of debt and privation, which means, perhaps, a century of tribulation and tribute, dances. While statesmen study what it is possible for Germany to pay, we hear of German gambling in the streets at day and prancing about the floors of beer halls at night, despite riot and civil warfare in many German cities by day and by night.

Great Britain, it is said, is not far from bankruptcy. To the tremendous costs of the war the present disorganization of British industry is added. Today there are more than 1,000,000 persons idle in the British Isles.

The industrial prostration England knew at the time of our Civil War owing to being cut off from much of America's raw material was trivial to what England knows today. yet London never was so gay superficially. As in Berlin, there is a craze for dancing. In the great town houses it has become the custom to have dancing parties night after night with a supper or breakfast at 5 A. M., to mark the closing of the festivities. And yet in India, the largest dependency of the British Empire, there rages one of the greatest famines in history, and there is rebellion in Egypt and near rebellion constant in Ireland.

In America there is extravagance unprecedented. The trade in jewelry in the four months of December, January, February and March is said to exceed any twelve months on record. There is a barbaric demand for diamonds, rubies, pearls and such things. So, too, with fine furs.

THREE DEAD IN FIGHT

Another Fatally Wounded in Floyd County After Card Game

Christiansburg, Va., May 6.—Reports reached here yesterday of a battle Sunday morning in the Buffalo Mountain, Floyd county, which is suspected to be the scene of considerable distilling. It is said one man was killed in a card game, after which the factions separated and for several hours kept up an irregular fire. Officers have been rushed to the scene.

Amos Sutphin, aged 35; his nephew, Harles Sutphin, aged 20, and Deck Talbot, aged 35, are dead. Eddie McPheek, aged 22, who returned from France, is probably fatally injured, and another Sutphin is wounded.

Giles and Floyd Harris, prominent farmers of this section, are said to have been present.

SHIPBUILDING TO GO ON

Hurley Reassures Industry Regarding Nation's Plans

Washington, May 6.—Chairman Edward N. Hurley, of the Shipping Board who announced a few days ago the cancellation of contracts for approximately 2,000,000 tons of steel ships and whose action created general alarm throughout the entire shipbuilding industry, wants it understood that these cancellations do not mean that the Government is preparing to withdraw from the business of ship construction. Nor does he want it understood that the yards which are equipped to engage in profitable peacetime construction are to be left in the lurch.

In a statement just issued, Mr. Hurley declares that the cancellation of the contracts was necessitated because of the fact that most of the ships involved would be of little value in foreign trade and because all of them were contracted for at wartime prices, which were excessive. He says that new contracts are to be awarded and that a substitute program is being worked out by the Government to replace that which the early return of peace made impracticable. All shipbuilders who suffer loss by reason of the cancellation are to be adequately compensated by the Government and all of those who are able to build ships will be awarded contracts.

EAGER TO GET TERMS

German Delegates Complain Bitterly of Conditins Surrounding Them

Berlin, May 6.—Foreign Minister Count von Brockdorff-Rantzau, head of the German peace delegation, according to the Vorwaerts, has asked he entente when the peace terms would be submitted, pointing out that his own and his colleague's official business would not permit a long wait.

At headquarters here, where Count Johann Heinrich von Bernstorff is directing the German "peace policy," the statement was made yesterday that the German delegates at Versailles have found plenty of things to complain about.

In the first place, they object to their movements, being checked. Secondly, they do not like the idea of several officials having to sleep in one rom. Furthermore, they are "astounded" at the delay in submitting the treaty, and lastly, they are "greatly agitated" over semi-official reports that they will have to put all their arguments in writing.

If this is true, it is asserted, "the trip to Versailles was superfluous."

1,000 VOLUNTEERS SAIL

Nearly all the privates are young men who have been in the army and were attracted by the advanture in prospect. Some of the privates and most of the officers were in camps, awaiting orders to embark for France when the armistice was signed.

VILLA AGAIN A MENACE

Rebel Leader Threatens Entire Northern Mexico

Washington, May 6.—The situation in northern Mexico again is reflected as serious, in advices received here from Mexico City and the border. The State Department has been advised that 3,000 employes of an American mining company at Santa Eplalia have been removed to Chihuahua City because of threats by Villa, the bandit leader.

In the capture of Parral, the entire Carranza garrison went over to the Villa forces which now threaten Chihuahua City. Americans in the state capital are reported to be endeavoring to obtain passage to El Paso, as they believe the garrison will join the Villistas in the even tan attack is made on the city.

Torreon is said to be Villa's next objection and it is the belief here the capture of the city would clear his road to the south. Reports from the border say the Conchos bridge at Ortiz, south of Chihuahua City, has been destroyed by the rebels, thus closing the road for reinforcements moving northward.

GERMANY ACTED ON FAKE

Declared War When Imaginary French Invasion Was Reported

Paris, May 6.—The Imaginary invasion of German territory by the French was the pretext for the declaration of war on France, says Gottlieb von Jagow, former German Foreign Minister, in a book which he has just published entitled "The Universal War, Its Causes and Beginning." The alleged French incursions were reported to the German staff by subordinate officers, von Jagow says, and the staff communicated the information to the Government without attempting to ascertain the facts.

The former Foreign Minister asserts that before the war he was convinced of the necessity of an accord with Great Britain and expressed regret that Germany unfavorably received offers of an alliance made in 1899.

When the Austro-Hungarian Ambassador in Berlin communicated to him the text of the ultimatum to Serbia, von Jagow says he thought its terms were too rigorous. He declares he expressed some astonishment that Berlin had not been informed earlier of the step taken at Vienna.

Theodore Wolff, in the Tageblatt, commenting on von Jagow's version of the interview he had with the Austrian Ambassador concerning the ultimatum to Serbia, says that after reading it he is more at a loss than ever to understand why the proposal made by Sir Edward Grey to call a conference of ambassadors to examine the conditions to be enforced on Serbia, was rejected so categorically by Germany.

BUDAPEST SCENE OF PANIC

Complete Disappearance of Order in City—Bela Kun Has Narrow Escape

Budapest is the scene of the greatest panic, according to dispatches. Recent statements of the situation by Bela Kun, the Soviet Foreign Minister, have led to a complete disappearance of order and Bela Kun himself is reported to have had a narrow escape from violence at a meeting of the Soldiers and Workmen's Council. Red Guards have patrolled the streets of the city, threatening the Bourgeoise.

TO RETURN SHANTUNG

Japanese Peace Delegates Explain Nippon's Stand on Peninsula.

Paris, May 6.—The policy of Japan is to return the Shantung Peninsula in full sovereignty to China, retaining only the economic privileges granted Germany and the right to establish a settlement under the usual conditions at Tsing Tao, it was declared in a statement issued today by Baron Makino, head of the Japanese delegation at the Peace Conference, in explanation of Japan's position on the Shantung question.

BOOST BREAD PRICES

Chicago, May 6.—An advance of twenty per cent in bread prices in Chicago became effective last week. Master bakers said the instance was made necessary by higher cost of labor and materials. Some retailers charged bakers had combined to boost prices and said they would ask an investigation.

Frank Feick, commissioner of the department of labor, who has been investigating the bakers' strike here was said to have gone to Washington to submit his report. Bakers, in some larger shops are still on strike with no prospect of an agreement being reached.

EXPORTING THEIR MONEY

The Neues Zeitung of Stuttgart affirms that in spite of regulations issued by the German Government a great many capitalists, in particular those who made enormous war profits are managing to export their money.

BISHOP ON HORSEBACK

Memorial to Asbury Wil be First Equestrian Statue of Kind in United States

Washington, May 6.—The memorial to Bishop Francis Asbury, founder of American Methodism, to be erected here from funds collected in the Methodist churches of the United States and Canada, will be an equestrian statue. An announcement yesterday said this would be the first equestrian statue of a minister of the gospel to be erected in the United States and that it had been decided upon because Bishop Asbury spent much of his time in the saddle and even prepared many of his sermons on horseback. The memorial will cost $50,000.

THE MEN IN CLASS A1

A sound, healthy man is never a back number. A man can be as vigorous and able at seventy as at twenty. Condition, not years, puts you in the discard. A system weakened by overwork and careless living brings old age prematurely. The bodily functions are impaired and unpleasant symptoms appear. The weak spot is generally the kidneys. Keep them clean and in proper working condition and you will generally find yourself in Class A. Take GOLD MEDAL Haarlem Oil Capsules periodically and your system will always be in working order. Your spirits will be enlivened, your muscles supple, your mind active, and your body capable of hard work.

Don't wait until you have been rejected. Commence to be a first-class man now. Go to your druggist at once. Get a trial box of GOLD MEDAL Haarlem Oil Capsules. They are made of the pure, original, imported Haarlem Oil—the kind your great-grandfather used. Two capsules each day will keep you toned up and feeling fine. Money refunded if they do not help you. Remember to ask for the imported GOLD MEDAL Brand. In three sizes, sealed packages.

PROBE GOES DEEPER

Rigid Inquiry to Ascertain Who Bought Paper Wrapped About Infernal Machine Now On

New York, May 6.—No arrests were made yesterday by Federal or city authorities in connection with the country-wide bomb plot against prominent persons. Denial was made that 12 more bombs had been discovered in the mails.

Rigid inquiry was being prosecuted to ascertain who purchased the paper which was wrapped about the infernal machines mailed from this city This paper was a fine green fabric. According to the manufacturers, Louis De Jonge & Co. of this city, not more than a dozen boxmakers and dealers bought this particular kind of wrapping.

An Oliver "Printype" typewriter was used in addressing the bombs, and the type characters identify the machine as an Oliver No. 5, 7 or 9. The adornment on each package wrapper, a man with a stock in his hand, is known as Klondyker No. 6, made by the American Type Founders Company at Communipaw, N. J., 10 years ago and is seldom used.

SECURITY OF EUROPE

Peace Treaty Puts Veto on Germany's Eastward Expansion

Paris, May 6.—The territorial status of Germany, as definitely settled by the Council of Three yesterday, says Marcel Hutin in the Echo de Paris, in the view of the council, will protect the general security of Europe. These decisions put an effectual veto on the "Drang Nach Osten" movement which the Germans desire to pursue, prevents an alliance with the Russian Bolsheviki and forbids the incorporation in Germany of German-Austria.

As regards German-Austria, M. Hutin says that its peace delegates certainly will be called to Paris and Austria will be made a neutral republic under the aegis of the league of nations with the prohibition that she shall not ally or incorporate herself with Germany.

The Council of Three, M. Hutin declares, also adopted a chapter in the peace treaty defining the status of Alsace and Lorraine, which are given absolutely to France.

The outline of the new frontiers of Germany were presented to the council in a report by the special commission composed of Capt. Andre Tardieu, representing France; Prof. Charles H. Haskins, on behalf of the United States ,and Viscount Morley, for Great Brintain.

BOMBS IN MAIL

Gov. Bilbo, Mayor Scott and Frederick Sullens Are Objects of Plot

Jackson, Miss., May 6.—Three packages, which Postoffice officials fear contain infernal machines, were received yesterday morning at the offices of Governor Thomas G. Bilbo, Mayor Walter A. Scott and Frederick Sullens, editor of the Jackson News.

The packages were carefully sealed, marked "first class mail" and "glass, handle with care." The name of Gimbel Brothers, New York department store, was on each package.

The Postmaster General at Washington has been notified and an inquiry is under way to ascertain if any other similar packages were delivered in Jackson yesterday.

New York, May 6.—A package outwardly resembling a bomb was found at 39 Broad street, in the financial district, yesterday. Police took the parcel to Old Slip police station. Police Inspector Owen Eagan of the bureau of combustibles, is investigating.

Six families were thrown into panic early yesterday when a time bomb of great strength exploded in the lobby of the Van Cortland Apartments, a brick and stone structure at 645 Central avenue, East Orange, N. J., the property of Samuel S. Leber, a Newark attorney. The entire neighborhood was thrown into terror. One person was injured. Damage is estimated at $3,000.

WANTS HISTORIC SHIPS

Navy Official Says Permanent Exhibit Should be Established in Washington

An effort to preserve three historic men-of-war for the nation in the tidal basin at Washington, was begun yesterday by Acting Secretary of the Navy Roosevelt.

The famous Constellation, of revolutionary war fame, and the Hartford, Admiral Farragut's flagship of the civil war, and possibly the Constitution, if Acting Secretary Roosevelt's efforts are successful, will be brought to Washington.

Acting Secretary Rosevelt's plan is to have concrete foundations built in the tidal basin, so that while the ships would seem to be afloat, they would be practically indestructible.

MORRIS IS IN JAIL

Faces Murder Charge Today in Court Where He Shot Magistrate

Charlottesville, Va., May 6.—Edgar Morris, will be arraigned in Greene circuit court today in the very courthouse at Stanardsville in which, over five weeks ago, he shot down Magistrate Bluford G. Sullivan.

Morris, who was captured early Saturday morning in a rooming house at Elkins, W. Va., by Sheriff Marsteller, soon after leaving a lumber camp in Cheat Mountain, was lodged in the jail at Stanardsville early yesterday morning. While Joel M. Cochran, captain of the Albermarle Rifles, and a number of other citizens, including a half-dozen of Morris neighbors from Greene, were gathered at Union Station at noon yesterday antidipating a glimpse at the prisoner, word came that Morris had been tucked away in the jail.

From Hagerstown, Md., the officers came down the Norfolk and Western Railway Sunday afternoon to Elkton, Va., and late at night started across the Blue Ridge in an auto.

Judge John W. Fishburne, who will preside at the session of the circuit court left Charlottesville in an auto early this morning for Stanardsville. Clarence E. Gentry, of the Albemarle bar, has been designated as special prosecutor of the cases pending against Morris and against Harman Shifflett, indicted for aiding and abetting Morris to escape from the courtroom after he had killed Sullivan. Associated with Gentry will be Charles W. Allen, of this city, who has been employed by the relatives of the dead magistrate.

Deputy Sheriff George N. Morris has engaged Charles A. Hammer, of Harrisonburg, to defend his son. The same attorney will represent Harman Shifflett. Opinion prevails that after a day is set for Morris' trial the prisoner will be brought here and locked in the Albemarle jail.

A GREAT ECONOMY BECAUSE OF EXTRA WEAR

"After a trip to Kilauea, the active volcano of Hawaii, my Neolin-soled shoes were the only ones not absolutely ruined. Many in our party wore hob-nailed boots," said Miss Jean P. Lane of Seattle, Washington.

The sharp jagged lava of Kilauea cuts an ordinary sole to pieces quickly. That Neolin Soles stood the test but emphasizes their toughness and durability. These qualities are built into them by a scientific process. Women—and men and children, too—who are hard on shoes should buy them with Neolin Soles. They come in many styles, and because of the extra wear they give, are a great economy.

And any repairman will re-sole your worn shoes with Neolin Soles, which are flexible and waterproof as well as long-wearing. They are made by The Goodyear Tire & Rubber Co., Akron, Ohio, who also make Wingfoot Heels, guaranteed to outwear all other heels.

KILLED WHEN PLANE [illegible]

Machine Swoops Down; Two Occupants Death Instantaneously

Rockaway Beach, Long Island, N. Y., May 6.—Two naval men were killed instantly late yesterday, when they fell 500 feet in the plane in which they had been making a flight. The men killed were Ensign Hugh K. Adams, 30, of Pittsburgh, the pilot, and Chief Gunner Mate, Harold B. Corey, 22, of Binghamton, N. Y.

Ensign Adams and Corey were in a seaplane of the A. H. F. type, directly above the naval air station grounds, when some accident occurred. The plane swooped downward, falling upon the top of a large gas tank on the grounds.

UNNECESSARY CALLS

DOESN'T it seem strange that the telephone company should ask you not to make unnecessary calls?

THERE was a time when the telephone company openly and consistently advocated free use of the wires, even for social conversations. But times have changed. Let's get the big job cleaned up first and do our social and non-essential talking later.

WE must still save telephone calls in order to conserve labor and materials. As to what is an unnecessary call, it should not be hard for each to decide that for himself.

PRICE OF PEACE REVEALS SECRETS

Treasury Presents Film of Events in Great Conflict Showing What Victory Liberty Loan Bonds Pay For.

Secrets of the war recorded by the motion picture camera and only now released by the censors are revealed in "The Price of Peace," an official film issued in behalf of the Victory Liberty Loan and being shown all over the country.

"The Price of Peace" is the only official picture ever assembled which purports to cover the war from the day it was declared down to date.

The purpose of the picture as announced by the Department of the Treasury through Frank R. Wilson, director of publicity, is to put before the public a graphic accounting and to make clear why there is now a Victory Liberty Loan.

The picture opens with a scene in President Wilson's office and a reference to that momentous April 6, when war was declared. It concludes with a remarkable view of the Status of Liberty, in New York harbor, and the homecoming of our army.

But there is a vast deal between, including the embarkation of troops, their landing in France, final training over there, then the desperate realities of the front line trnchs, gas attacks, army railroading under fire, the great attack from Soissons to Chateau Thierry, infantry and artillery under heavy bombardment, a battle between aeroplanes, and the downing of an enemy airman, the observation balloons under fire, then the battle dead, the prisoners, captured guns, our troops marching over the Rhine into Germany, General Pershing and his men in Prussia. Christmas with the Army of Occupation in Germnay, and the homecoming.

Probably the greatest thrill of the picture is in the scenes where our troops are seen going "over the top" and into the wheatfields at 4:35 o'clock on that famous July 18, 1918. There is a dim, misty light, that gives these scenes a peculiar intensity. Other scenes of desperate fighting show an American battery under heavy fire from enemy guns in the Argonne. In yet other scenes American soldiers are shown bravely advancing under shrapnel fire across an open glade. Two are shot down near the camera.

The activities of the American navy furnish another important chapter of the picture. A number of impressive scenes show the German fleet steaming to surrnder.

TRYING TO SPLIT ALLIES

Hun Peace Delegate Calls Policy Foolish

Count von Brockdorff-Rantzau, chairman of the German Peace Delegation, in an interview with the Versailles correspondent of the Berlin Tageblatt, denies that he helped to cause differences between the Allies. The count is quoted as saying.:

"It is not true that I have ever pursued a policy hoping for differences between the Allies. I consider such speculation bad policy because it is both foolish and dishonorable. Moreover, such a policy offers no prospect of success. It is economic more than political questions that hold our opponents so firmly together and it is hardly conceivale that they can be separated."

A dispatch to the Vorwaerts from Versailles says that Count von Brockdorff-Rantzau asked the Allies when the peace treaty was to be presented, because official business of himself and others in the German party does not permit of a long wait.

The German delegation, it is added also protested against the erection of the wire fence around their residence in which, the Vorwaerts says, the Germans are kept "like dangerous animals."

MINE SWEEPERS QUIT

German Ships Which Have Cleared Ways for Food Boats Lack Coal

The German mine sweepers which have been repairing the fairways leading to the North sea ports used by the American food ships have been forced to quit operations because of a coal shortage, a committee of the Prussian Diet has been informed by Food Commissioner Schmidt. The outlook for the immediate future as regards the food question, however, is not unfavorable.

The stores of wheat, the Commissioner announced would hold out until the next harvest, but the present bread rations could not be increased. There is a marked improvement in the supplies of fish. There is fear of a sugar shortage, he also stated, because of a lack of workers and fertilizers for beet growing.

BUMBLE BEE WRECKS AUTO

Stings Woman, and in Panic, Car is Run Into Pole.

Hazelton, Pa., May 6.—A bumble-bee caused an automobile wreck in which the machine of J. L. The bee stung Mrs. Lombardo, and her screams excited the entire party, the chauffeur losing control, and the car dashing into a pole. Lombardo's hip was sprained, but the other occupants escaped with slight bruises.

Says Phosphates Make Beautiful Women and Strong .. Healthy, Vigorous, Robust Men.

Physicians all over the world are prescribing phosphates to build up run down enemie conditions and those who have treated their patients with Argo-Phosphate are changing thin, anemic women with toneless tissues flabby flesh, into the most beautiful rosy cheeked and plump round formed women imaginable.

Atlanta, Ga., Dr. Jacobson said in a recent interview that 90 per cent. of anemia comes from nervous breakdown which can only be corrected by supplying the necessary phosphates to the nervous system that is lacking in the food you eat, and this can be quickly supplied by taking one or two 5-grain Argo-Prosphate tablets after each meal, and at bed time. It will in many cases make a pale scrawney face the picture of health in a few days, I have seen women that I expected would have to be kept under treatment for months restored to perfect health in one or two weeks time.

SPECIAL NOTICE. The Argo-Phosphate recommended by Dr. F. H. Jacobson contains phosphates such as are prescribed by leading physicians throughout the world, and it will be found the most effective form for treating patients with Nervous Dyspepsia, Stomach troubles, Brain Fag, and Nervous Prostration. It will renew youthful vim and vigor, and build up the whole body. Argo Phosphate is dispensed by Richard Gibson and The Rexall Store. Free sample mailed by the Argo Laboratories, Atlanta. Ga.

W. A. SMOOT & CO. INC.

Your Next Winter's Coal

We do not know what the price of coal will be next Fall and Winter, as the retail price is governed by the price at the mines and the freight.

Our understanding of the present program is that Anthracite coal will advance ten cents a ton a month from May 1st to September 1st, and although we think this program will probably be carried out yet we are not sure of this.

We do know that THE MINES CANNOT PRODUCE, THE RAILROADS CANNOT HAUL, AND THE DEALERS CANNOT HANDLE nearly enough coal during the Fall and Winter months to take care of an ordinary Winter's demand.

This means that coal will have to be mined, transported and delivered during the Spring and Summer to avoid a serious shortage next Fall and Winter.

We advise our customers to take these facts into consideration and order a reasonable supply of coal now.

NEW YORK RESORT IS RAZED BY FIRE

New York, May 6.—Fire early today wiped out Happyland Park, three hotels, and hundreds of bathhouses and small bungalows at South Beach, a Staten Island resort, causing a loss of about $500,000. The body of a woman caretaker was found in the ruins. The police suspect incendiarism. Only a few nights ago practically every building at Brighton Beach, including the new winter pool, was destroyed by fire.

WOMAN KILLS MAN

Shoots Chicago Art Pulisher in Dispute Over Miniature

Chicago, May 6.—P. F. Volland, 56 years old, art publisher, was shot and killed in his office here yesterday by a woman who gave her name as Mrs. Vera Trepagnier, 55 years old, widw of a New Orleans planter.

Authorities say Mrs. Trepagnier said she was prompted to shoot Volland because he failed to pay her $5,000 and royalties promised her when she turned over a miniature of George Washington to him.

CHAOS IN ARGENTINA

Practically All Big Industries Are Feeling Serious Effects of Strike

Buenos Aires, May 6.—Almost all industries in Buenos Aires are seriously affected by strikes. The strikes include bakers, journalists, department store clerks, actors, bargers, laundry workers, delivery wagon drivers, grocery clerks, electric plant employees and bank clerks.

Two big hotels and one newspaper have shut down. Funerals are conducted under direction of the city dispensary.

PARIS WORKERS TO STRIKE

Paris, May 6.—The Bank and Bourse Empolyees' Union met and voted to go on strike Monday.

The bank employees demand a minimum of 200 francs monthly, with a regular increase up to 500 franc.

Why Buy Alexandria Real Estate?

Because Alexandria is 2,000 homes short of her requirements.

2,200 men are employed in the great Virginia Shipbuilding Plant.

Fifty per cent are married men. Less than 10 per cent have their families here. There is no room for more until more homes are built.

The Torpedo plant is nearing completion. Hundreds of men will be employed there. They too must have homes. Ask yourself the question "Where are these people to live, Can they all be quartered in rooms and apartments?" They can not. The children must have some place to go some place to play.

Real estate values under such conditions are simply bound to go up.

Supply and demand regulates the price of real estate just the same as oil or anyother commodity and here in Alexandria we are 2,000 homes short so the price of real estate must advance.

Buy now while you can get in on the low price and easy terms. See us today, and remember $15 is all it takes to start. F. C. Goodnow Company, agents for trustee, Office 600 King Street. Phone 388. 108-tf.

GRAND THEATRE

When Leslie Selden received a note from her sweetheart saying he had run away because he dared not face the draft, she did not believe he wrote the note of his own free will. Almost singlehanded she uncovered a vast bomb plot which would have wrecked the country's greatest city, and carried the proof to this man's door. He was slain trying to escape and just in time she saved her sweetheart, a prisoner in the house.

The romance, by Robert W. Chambers, is vividly portrayed in "The Girl of Today," the Vitagraph Blue Ribbon Feature, which will be seen in the Grand Theatre tonight. Corinne Griffith is the heroine and in the supporting cast are Marc MacDermott, Charles A. Stevenson, Webster Campbell and Ida Darling. There will also be a comedy.

A strong wind blowing across the river is believed to have saved some of the birds from landing in the water.

ITALIANS WILL RETURN

Will Make Fiume a Free Port Under Control of the League of Nations

Paris, May 6.—Premier Orlando and Foreign Minister Sonnino, of Italy, will arrive in Paris Wednesday morning.

Official information to this effect, which means that Italy returns to the Peace Conference, was conveyed to the French foreign minister, Stephen Pichon, by the Italian ambassador to France, late yesterday.

The complete document of the peace treaty will not be delivered by the printer until Wednesday at the earliest, it is learned. This means that the meeting with the Germans at which the treaty will be handed to them cannot take place before Thursday.

The Italian ambassador to France informed Foreign Minister Pichon that Premier Orlando and Foreign Minister Sonnino are leaving Rome tonight and will arrive here Wednesday morning.

At the same time it was learned the "big three" is considering a plan for making Fiume a free port, under control of the league of nations, for a period of three years.

While the Italians and Jugo-Slavs thus would enjoy equal commercial privileges in the disputed city during this period, work would be hurried on construction of another port for the Jugo-Slavs on the Dalmatian coast. At the expiration of the three years it is assumed Fiume would be formally annexed to Italy.

OUSTS BOLSHEVIKI

Soviet Propagandists Slip in Disguised as Red Cross Officials.

Washington, May 6.—All possible precautions against the bolshevik menace have been taken by the government of Denmark, said a cablegram received yesterday by the Danish legation from the foreign office at Copenhagen. Russian propagandists have been expelled from the country, the bolshevik bureau of information in Copenhagen dissolved and the circulation of Russian money forbidden.

"From time to time," said the cable gram, "bolshevik agitators try to get into Denmark disguised as Red Cross officials, but they are soon ordered out of the country by the Danish authorities. A Dr. Bero, who declared himself to be the official representative of the Russian Red Cross, but who was really a Russian propagandist, has just been expelled from Denmark with his wife and all his secretaries and clerks."
